Test Project

Mobile Applications Development
Module B Design
Day 2 A.M.

Submitted by:
Independent Test Project Design Team

Contents

Introduction

WorldSkills is holding the global WorldSkills Competition all over the world in October 2022. As the organizer of this competition, WorldSkills hopes to develop relevant apps to serve the audience who pay attention to this competition. The audience can sit at home, learn about WorldSkills, feel the atmosphere of the competition , and follow the dynamics of the competition through pictures and videos from the app.
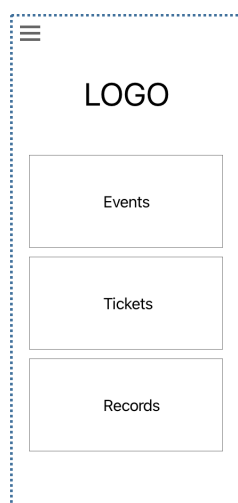

The product manager has provided you with product wireframes. As a developer of the mobile app, you need to redesign the wireframes to provide the development engineer with a XD file.
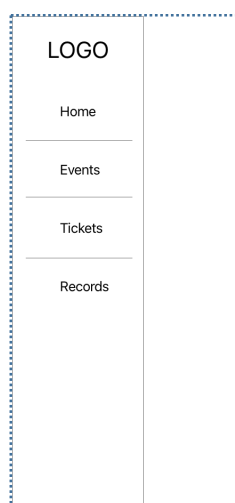

Description of project and tasks

This design task is divided into two parts according to different target terminal types:

|	Part	Name	Competition time	Marking devices
✓	A.M.	Design (phone)	2.5h	Adobe XD (in the preview) 540*960
	P.M.	Design (tablet)	2.5h	Adobe XD (in the preview) 1280*900

The following is the original wireframes. Please check the media-files folder for details:

General Demands

1. You can add more reasonable elements and interactions according to reasonable design needs.
2. You should add at least 1 page to enrich the theme of the App, and the specific content of the page is up to you.The entry to the page should be in the drawer navigation.
3. Links between all pages should be set up.
4. You don't need to apply all the data in **media-files**.
5. Every page needs design improvement.
6. You can change the text in the wireframes or media-files.

Pages Demands

1 Home

1.1 Elements at least include:

1. LOGO;
2. "Events", "Tickets", "Records" area entrance;
3. Drawer menu icon.

1.2 Design requirements:

1. LOGO needs to use the provided **media-files/logo.** You can change the color of the logo, but not its shape;
2. "Events", "Tickets", "Records" area entrance should have color decoration;
3. Click the drawer menu icon to show an expanded navigation effect (refer to wireframe "Drawer menu").
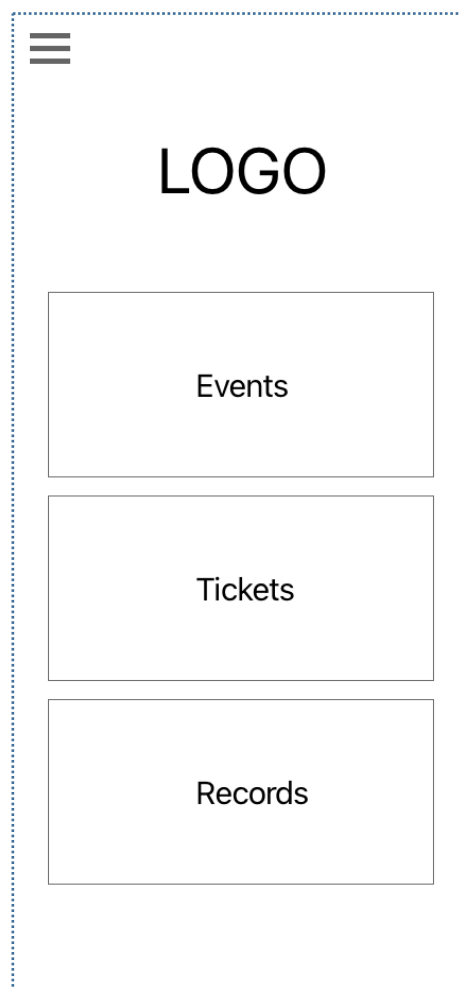

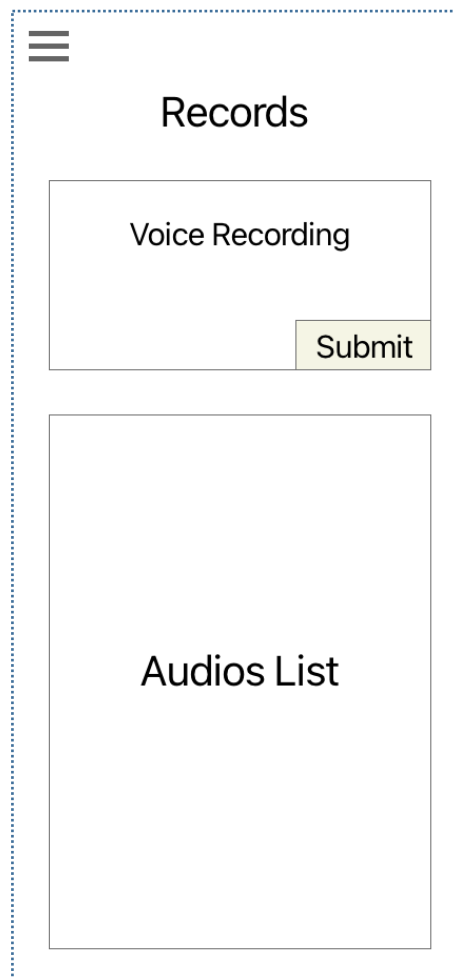

2 Records

2.1 Elements at least include:

1. Title: Records;
2. Voice Recording area;
3. Audios List area.

2.2 Design requirements:

1. The voice recording area needs some design improvements, such as refining the buttons;
2. The Audios List area needs some design improvements, such as you may design some list items of mock data.

3 Events List

3.1 Elements at least include:

1. Filter button: "Read", "Unread" and "All";
2. List of the events.

3.2 Design requirements:

1. Filter buttons should be decorated, not text-only;
2. At least 5 list items must be specific media-files content provided in **media-files/events**;
3. The list area contains two states of read and unread, please design the corresponding icon;
4. The list content is not fully displayed on the screen. It should be scrollable.
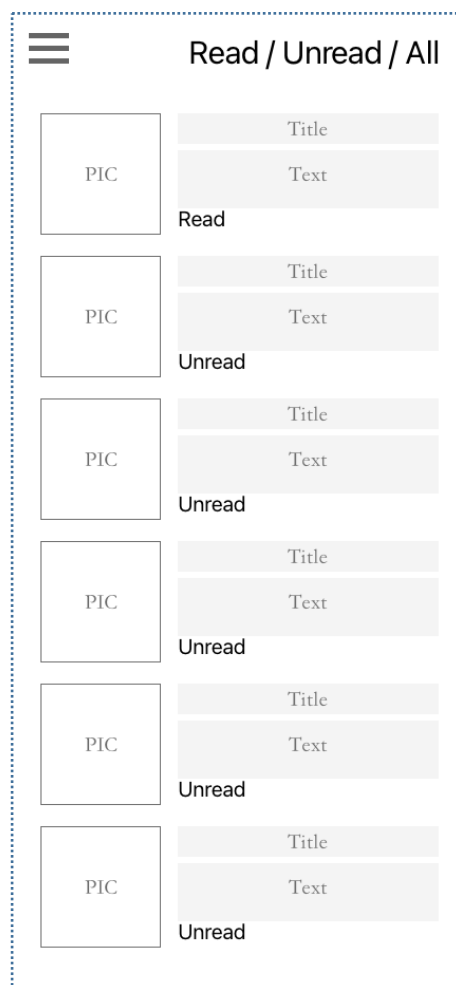

4 Event Details

4.1 Elements at least include:

1. Event title;
2. View counts;
3. Three pictures;
4. Text content.

4.2 Design requirements:

1. The specific content comes from **media-files/events/** (you may decide which event information to use).

5 Event-bigger-picture

5.1 Elements at least include:

1. Bigger picture.

5.2 Design requirements:

1. Design this page according to your idea,it has got some design improvement;
2. The bigger image area can switch to other images by swiping.

6 Tickets List

6.1 Elements at least include:

1. Page Title;
2. "Create a new ticket" button;
3. The tickets list.

6.2 Design requirements:

1. "Create a new ticket" button needs design improvement, such as changing the proper color of the button;
2. The number and shape of the created tickets need to change according to your design idea.

7 Ticket Create

7.1 Elements at least include:

1. Ticket create form and its form items;
2. Picture preview area;
3. "Create" button.

7.2 Design requirements:

1. There is no picture in the picture preview area. After clicking the preview area, it is replaced with a specific picture (**media-files/face.png**). Click the picture again to remove it. The two conditions can be switched repeatedly by clicking;
2. The "Create" button needs to be decorated, such as changing the color or anything else you want to improve.
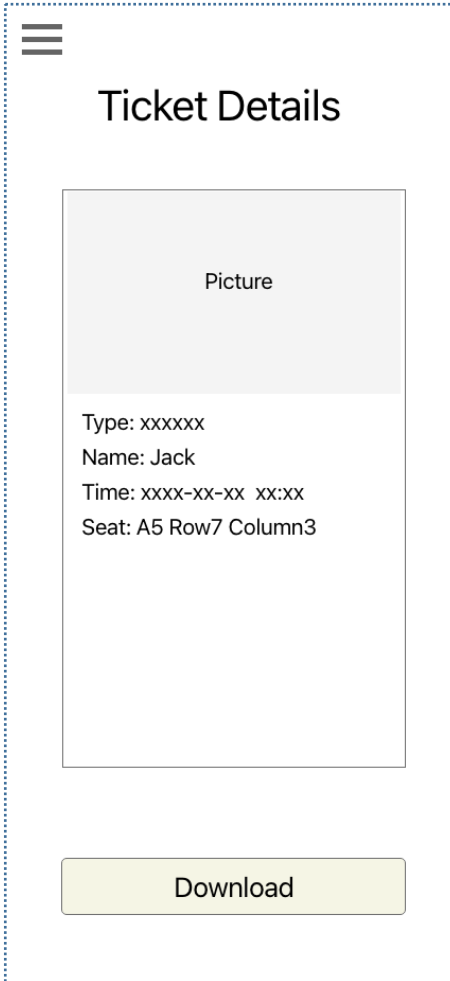

8 Ticket Details

8.1 Elements at least include:

1. Title;
2. Ticket info;
3. "Download" button.

8.2 Design requirements:

1. The ticket's outlook needs design improvement, such as filling in the specific data and confirming the particular colors.

Instructions to the Competitor

1. Submit Part AM in the morning and Part PM in the afternoon, and the two parts will be scored independently.
2. You need save the file as XX_Module_B_AM.xd to XX_Module_B_AM folder.
3. The whole XX_Module_B_AM folder should be pushed to the provided remote Git repository.
4. The works submitted to the remote Git server within the specified time will be marked.

Note: XX refers to your workstation code.

Marking Scheme

No.	Sub-criterion	Mark
	Module B AM	
1	Home Page	1
2	Events List Page	0.7
3	Event Details Page	0.8
4	Event-details-picture-bigger Page	0.9
5	Ticket List Page	0.8
6	Ticket Create Page	0.8
7	Ticket Detail Page	0.8
8	Records Page	0.8
9	General Demands	1.4
10	Judgement	2
	total	10
